FOUR DAYS LATER FROM EUROPE. Speculations of the British Press as to the Expected

Dismissal of Mr. Crampton.

PHILADELPHIA, June 17 .- Via Cape May we have some interesting items taken from the English papers brought by the steamer City of Baltimore, now com-

The news of Mr. Crampton's dismissal had not yet reached England, but the London press comment freely on the rumors of the probability. The London Times says it may be expected; but considering how much England has borne, she may well allow this to pass over with the rest; but that a fortnight after Mr. Crampton ceases to represent England at Washington Mr. Dallas will no longer exercise his functions at St. James. But there will be a remarkable difference between the two cases, Mr. Dallas having been treated with all respect, while Mr. Crampton will be ordered to leave after having endured more than any English representative in any foreign court during the present century has been called upon to submit to. The Times retracts its suggestion that we should avoid all occasion of offence, and withdraws all abstinence from anything which could by any possibility aggravate this dispute. We must undergo the indignity of seeing our Minister dismissed from the diplomatic circle of Washington for an offence supported by testimony on which we should never dream of convicting the basest of mankind.

The Presidential election must be carried at whatever price; and it is deemed by the present Ministry better to plunge their Government into any amount of disgrace, and this country into any degree of danger, than to lose a single vote which may be gained by insolence to allies or union with criminals.

The Times of the 3d inst. says:-Recent intellidoubt that the government of Mr. Pierce will not stop short in the cause in which he is embarked, but will follow up the reception of the Minister of Walker by the dismissal of the Minister of Queen Victotia.
